Instructions:
- Create a folder called **layout6** inside of your **Chapter6** folder
- Create the beginning HTML template for Figure 6.14 in the textbook (page 258).
  - Type the placeholder text that you see in the boxes: header, nav, main, footer
  - The only CSS you need for now are:

```html
#wrapper, any background color
#wrapper, width 800px

nav, width 200px
nav, border, any kind
nav, float left
nav, min-height, 400px
nav, any background color

main, min-height, 400px
main, border, any kind
main, left margin, 255px
main, any background color
```

In the end, it will look like this:

```
header

nav

main

footer
```
